SUMMARY

Software Engineer with 3 years of professional experience specializing in the MERN stack. Proficient in building responsive, SEO-optimized web applications and custom CMS modules (WordPress, DNN). Proven ability to optimize database performance by 30% and deliver production-grade UI implementations from Figma designs. Expert in RESTful API design and cross-functional team collaboration in Agile environments.

TECHNICAL SKILLS

Frontend: React.js, JavaScript (ES6+), HTML5, CSS3, Tailwind CSS, Bootstrap, Material UI

Backend: Node.js, Express.js, MongoDB, SQL, RESTful APIs

Programming & DSA : C++, Data Structures & Algorithms (Arrays, Linked Lists, Stack, Queue, Recursion, Basic Trees)

Tools & Platforms : Git, GitHub, Docker, AWS, Vercel, Netlify

Design & UI/UX: Figma, Photoshop, Canva

CMS/Other: WordPress, DotNetNuke (DNN), Redux, SEO, Agile Methodologies

AI Tools : Chatgpt, Claude, Copilot, Bolt, Windsurf, Cursor

PROFESSIONAL EXPERIENCE

Brickhill Landbase

MERN Stack Developer

Gurugram, India

Sep 2025 – Present

- Developing end-to-end features for MERN-based applications, utilizing MongoDB and Node.js for complex data schemas.
- Designing and consuming RESTful APIs with strict data validation to improve backend reliability.
- Optimizing database queries and indexing strategies, achieving a 30% reduction in server response latency.
- Implementing production-grade Figma designs into pixel-perfect React.js components with a mobile-first focus.
- Streamlining CI/CD pipelines on Vercel and AWS to improve deployment stability and reduce bug frequency.

VCQRU Private Limited

Front-End Developer

Gurugram, India

Jan 2024 – Sep 2025

- Engineered responsive web interfaces using React.js and Bootstrap, improving cross-browser compatibility by 25%.
- Developed custom DotNetNuke (DNN) modules to facilitate dynamic content management for enterprise clients.
- Enhanced website performance by optimizing Core Web Vitals, including lazy loading and asset compression.
- Built high-converting landing pages that increased lead generation efficiency by 15% through UX-driven patterns.
- Integrated third-party REST APIs to extend platform functionality and automate internal workflows.

KEY PROJECTS

Sabka Vaidya | Project Lead

sabkavaidya.com

- Developed a full-scale health platform featuring a custom-built React.js CMS for dynamic content updates.
- Implemented a secure SQL database architecture for optimized retrieval of product and consultation data.
- Achieved a 40% increase in mobile traffic by enforcing rigorous SEO standards and responsive design.

Mayo Girls College CMS | Full-Stack Developer

mcgs.ac.in

- Built a comprehensive Management System handling events and staff profiles through an intuitive admin interface.
- Optimized backend SQL queries to ensure rapid load times for media-heavy pages during high-traffic periods.
- Integrated custom DNN (DotNetNuke) modules tailored to specific educational administration needs.

Attendance Tracking System | Mern Stack Developer

bhladmin.com

- Developed an automated attendance tracking system to streamline and digitize attendance management, reducing manual errors.
- Implemented real-time tracking with reporting and analytics features to improve accuracy and productivity.
- Designed a secure, centralized dashboard for efficient monitoring and easy access to attendance data.

EDUCATION

Rajiv Gandhi Proudyogiki Vishwavidyalaya, Bhopal

Bachelor of Technology (B.Tech)

2020 – 2024

Score: 86%

Govt. School of Excellence

Higher Secondary (Class XII)

2019 – 2020

Score: 82%

Govt. School of Excellence

High School (Class X)

2017 – 2018

Score: 86%

INTERNSHIPS

Full Stack Developer Intern | Internpe

Remote

- **Task:** Engineered a task-tracking application using the MERN Stack to handle real-time data persistence.
- **Outcome:** Built a functional CRUD system with RESTful endpoints, managing NoSQL database schemas effectively.

Web Developer Intern | Technohacks & Target Institute

Remote

- **Task:** Refactored 10+ landing pages for mobile responsiveness and performance optimization.
- **Outcome:** Ensured 100% cross-browser stability and reduced page load times by approximately 15%.

CERTIFICATIONS

- **Full Stack Web Development (Internpe):** Specialized in MERN integration, state management, and API design.
- **Responsive Web Design (Technohacks):** Mastery of mobile-first CSS frameworks and UI/UX best practices.
- **Professional English Speaking (Spartans English):** Certified in technical communication for corporate environments.
